

Claims

[c1] What is claimed is:

1. A device comprising:

A corner mounted tray triangular in shape that attaches to the upper surfaces of shower bath walls which has a perforated bottom surface, upstanding sidewalls and angled front wall.

[c2] 2. A device according to Claim 1 in which said tray is supported on top of the walls in a corner between two walls.

[c3] 3. A device according to Claim 1 which is attached to said walls by a plurality of screws

4. A device according to Claim 1 in which said angled front wall has a 2 degrees draft for drainage towards the front of said tray.

[c4] 5. A device according to Claim 1 in which said two side walls with a curved edge.

[c5] 6. A device according to Claim 5 with said side walls being 5 inches long and 1 inch tall

7. A device according to Claim 5 with said side walls being at a 90 degree angle in relation to said bottom sur-

face.

- [c6] 8. A device according to Claim 1 in which said bottom surface has a 2 degrees draft which allows the fluids and water to drain towards the front and not towards the corner.
- [c7] 9. A device according to Claim 1 in which the back corner of said tray is open allowing easy cleanup and backward drainage.
- [c8] 10. A device according to Claim 1 in which each said sidewall has a hole for a connecting means.
- [c9] 11. A device according to Claim 10 in which said connecting means is a screw.
- [c10] 12. A device according to Claim 1 in which said side walls do not extent all the way to the corner to allow for fluid drainage on each side.
- [c11] 13. A device according to Claim 1 in which said tray to is used to hold shower and bathroom accessories.
- [c12] 14. A device according to Claim 1 in which said tray is used to hold accessories on upper surfaces of shower and bath walls.
- [c13] 15. A device according to Claim 1 in which said tray is

used to increase the usable surface of shower and tubs.

[c14] 16. A device according to Claim 1 in which said tray is used to keep harmful objects and products out of the reach of young children.

[c15] 17. A device according to Claim 1 in which said tray is used as a removable storage utility for shower and baths.

[c16] 18. A device comprising:

A corner mounted tray triangular in shape that attaches to the upper surfaces of shower bath walls which has a perforated bottom surface, upstanding sidewalls, angled front wall, in which said tray is supported on top of the walls in a corner between two walls and is attached to said walls by a plurality of connecting means, which said angled front wall has a 2 degrees draft for drainage towards the front of said tray, which said two side walls with a curved edge at a 90 degree angle in relation to said bottom surface, which said bottom surface has a 2 degrees draft which allows the fluids and water to drain towards the front and not towards the corner and said side walls do not extent all the way to the corner to allow for fluid drainage on each side.

[c17] 19. A device according to Claim 18 in which said connecting means is a screw.
